

Hosting

Can I check my e-mails via webmail / web interface?

Of course, you can also access your e-mails via our web client. You can get the link to our 'Webmail' in the customer area under the menu item 'Hosting'.

After opening the link, a new tab will open. Here you can log in with the respective e-mail address and the corresponding password for this e-mail address.

Unique solution ID: #1331
