

Change

How can I change the domain owner of a .RO domain?

An AUTHCode is necessary to make a TRADE.

To receive an AUTHCode, please follow the subsequent steps:

1. Go to: <https://rotld.ro/domadmin/>
2. Click on the menu item „Domains Administration“ → „On-line“.
3. Log in with the domain name and password. (The password can be requested with „Password reset?“.)
4. Click on "Authorization Key".
5. Under point 1. "Acquiring Authorization Key for domain transfer" you can request the one-time AUTHCode.

You can initiate the TRADE subsequently in your customer area.

After initiation, further documents are requested, which are listed here.
